

# VEHICLE EQUIPMENT

for VW Amarok

## VEHICLE EQUIPMENT FOR HIGHEST DEMANDS

The VW Amarok, a massive all-wheel-drive beast of burden, doesn't only seem to make borders shrink, but also allows for vehicle equipment in minimal spaces meeting highest demands.

The two lateral windows of the hardtop provide for access to two drawer modules containing two drawers each.

The rear offers a fold-up rear cover and it is possible to fit a complete workshop.

The sturdy extension rails allow for pulling out individual storage shelves or drawer modules up to 1,200 mm in a user-friendly way. Thanks to the aluminum construction, this compact and sophisticated system only weighs 180 kg. Thus, there is still plenty of room, even for larger loads.
