# TOOL HOLDERS

# COLLECTION

#### Quick Release Buckles

High quality buckles used at the ends of shoulder straps in tool bags and cases, provide easy and quick fastening of the straps, which can be also used as shoulder belts.

#### Waterproof Solutions

Rigid plastic bottoms featured in our tool cases allow for use in difficult conditions – you can put them on wet or muddy surfaces.

#### Single Rubber Bands

All products feature single rubber band in Würth colours.

We are very excited to present to you our range of innovative products from the new Würth collection. We have not only designed products which are rich in unique technical and material solutions, but above all, extra functional and multi purpose work facilitating system.

All items have been constructed from top quality materials and feature durable industrial stitching, rivets and steel elements. Most of the products can be joined with other elements of the Collection providing two-in-one, three-in-one, four-in-one or even all-in-one systems for hand tools, power tools and accessories.

## MATERIAL & TECHNICAL

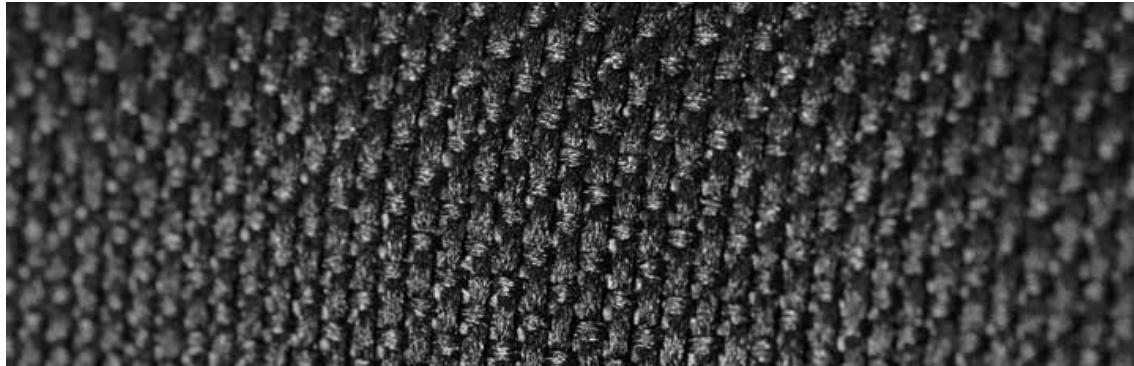

## SOLUTIONS

The whole collection is constructed from very durable and heavy duty 1680 denier polyester.

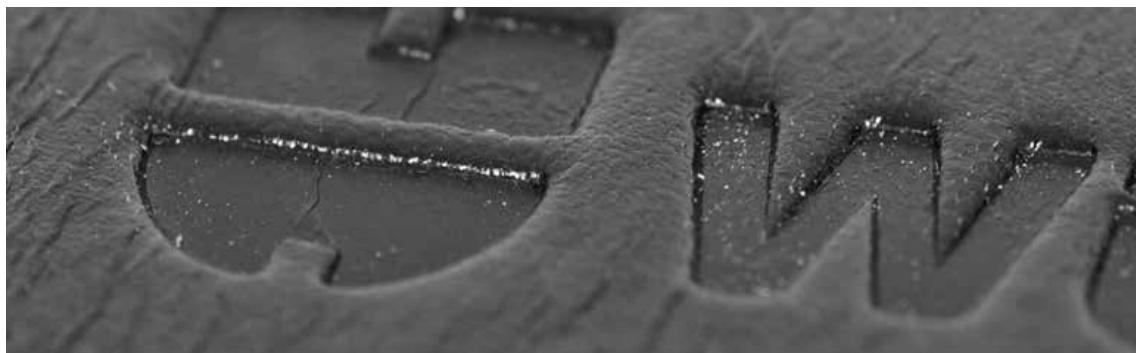

Heavy duty 1680 denier polyester.

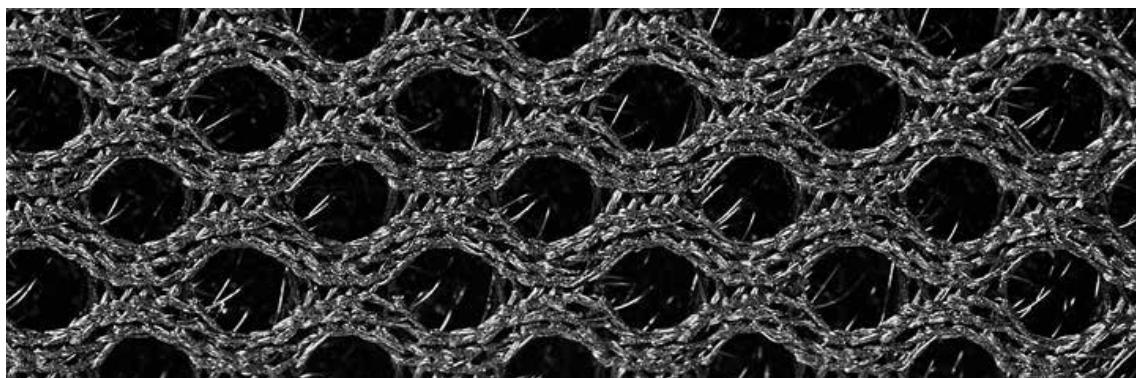

600 denier polyester used as an interior is proven for durability. It is lightweight, puncture and tear resistant.

**MORE**

Customized polypropylene tape with woven Würth logo. Strong and flexible material used in shoulder straps and tool belt.

Premium leather selected for use in products requiring strong and resistant material, like belts or tool slots.

Breathable material used as a cushioning, ensures air circulation and gives a feeling of softness.
